• PROFILE

Passionate Junior MERN Stack Developer with experience in building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in creating responsive frontends, RESTful APIs, and implementing JWT authentication. Eager to contribute to dynamic software development teams.

• EDUCATION

RTM Al-kabir Technical University
Bachelor of Science
Computer Science and Engineering

Jul 2025 - Jul 2029

• Project

Flower Shop / [Live Demo](#) / [GitHub](#)

- Designed and developed a full-stack e-commerce web application with interactive product catalogs, sticky navigation, and smooth UI animations.
- Implemented dynamic product filtering, cart management, and seamless backend API integration for managing inventory and orders.
- Built secure backend endpoints and database structures to handle user requests, data persistent ordering, and form validations efficiently.

Healthcare Management System / [Live Demo](#) / [GitHub](#)

- Developed a comprehensive full-stack healthcare web application to streamline patient portal management and dynamic appointment workflows.
- Implemented secure RESTful APIs and MongoDB database integration to handle user data, medical schedules, and real-time status updates efficiently.
- Created an intuitive, accessible UI/UX with responsive dashboards for managing healthcare services and client communication.

• SKILL

Frontend : HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap.

Backend : Node.js, Express.js, MongoDB, REST APIs

Tools & Programming : Git, GitHub, VS Code, C Programming

Soft Skills : Problem Solving, Team Collaboration, Communication, Time Management, Critical Thinking

Languages : Bengali (Native), English (Fluent)
