- Teamwork & Communication
- Time Management

PROFESSIONAL SUMMARY

Passionate Full-Stack Web Developer and Computer Science & Engineering (B.Sc. in CSE) student at RTM Al-Kabir Technical University. Proficient in building clean, responsive, and user-friendly web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) and JavaScript (ES6+). Strong foundation in core C programming and modern frontend frameworks. Dedicated to writing maintainable code and solving real-world problems.

FEATURED PROJECTS

Flower Shop Web Application

HTML5, CSS3, Keyframe Animations, Responsive Design

- Designed and developed a fully responsive e-commerce web layout featuring smooth CSS animations and clean UI structure.
- Optimized user experience across mobile, tablet, and desktop screens.

Dynamic Weather Application

JavaScript (ES6+), Fetch API, HTML5, CSS3

- Built a live weather application that fetches real-time meteorological data using an external REST API.
- Implemented dynamic DOM manipulation and asynchronous JavaScript logic for an interactive user experience.

Healthcare Management System

React.js, Node.js, Express.js, MongoDB, JWT

- Developed a full-stack web application featuring role-based authentication and appointment scheduling.
- Created secure RESTful API endpoints and managed database integration using MongoDB.
